CAREER OBJECTIVE

Currently pursuing BTech in Artificial Intelligence and Machine Learning (expected 2027) with strong interest in Python. Seeking challenging role to apply skills and enhance knowledge while contributing to organizational growth.

EDUCATION

B. Tech (Artificial Intelligence & Machine Learning)
Bapatla Engineering College, Bapatla, A.P

2023– 2027
CGPA 9.49

SKILLS

Programming Languages: Python, Basics of Java.
Web Development: HTML, CSS, Java Script.
Databases: SQL.

Frameworks & Libraries: Numpy, Pandas, Matplotlib, TensorFlow, Streamlit.
Tools: Git, VScode

PROJECTS

WEATHER FORECASTING APPLICATION | Java, OpenWeatherMap API, JSON, HTTP Client

- Developed a full-stack Java web application that provides real-time weather data and multi-day forecasts for any global location through OpenWeatherMap API integration
- Implemented robust backend architecture with asynchronous data retrieval, API key authentication, and JSON parsing using org.json library to process meteorological data efficiently

CURRICULUMFORGE AI-POWERED CURRICULUM MANAGEMENT SYSTEM | Streamlit, OpenAI API, Python

- Developed an intelligent curriculum management platform leveraging OpenAI's GPT models to automate syllabus generation, course structure design, and learning outcome mapping for educational institutions.
- Created a user-friendly web app with Streamlit featuring multiple pages for curriculum planning, resource management, and team collaboration between teachers and admin staff.

DOCKER WEB SERVER PROJECT | Docker, Nginx, HTML, CSS

- Developed and deployed a containerized web server using Docker and Nginx, delivering a responsive static website with seamless UI-backend integration.
- Optimized container lifecycle management (build, run, port mapping), ensuring portability, efficient packaging, and reliable troubleshooting of deployments.

ACHIEVEMENTS

- Merit Scholarship recipient; Secured 1st Prize in 58th Engineering Day Competition.
- Participant– Gen AI Forge Hackathon 2026.
- Participated in a Workshop on Automation of AI Agents using n8n Framework.
- Participated in a Workshop on Gen AI conducted by IIT Hyderabad.

CERTIFICATIONS

- NPTEL Certification in Cloud Computing.
- Java Full Stack Virtual Internship– Skilldzone.
- Python Essentials 1 – Cisco Networking Academy (Feb 2025)
- Microsoft Visual Studio Web Development Fundamentals – Microsoft (Feb 2026)
